## FEATURES:

- **NTUMExpress "leads" you through the application process** with simple drop down menus and buttons—making the application process easier than ever!
- **Applications can be started with very little information** and can be completed by multiple people as the information becomes available. VINs and driver's license numbers are not required for the initial indication/quote.
- **All coverage types can be completed online**—including Auto Liability, Physical Damage, General Liability and Motor Truck Cargo.
- **The system will auto-fill many fields** when you enter a USDOT number or MC number.
- **All information entered on each screen will be saved**, making it possible for you to edit data at a later time if needed.
- **You may print your application** at almost any time during the process.
- **The completed application can be saved to your hard drive.**
- **You will be able to submit the application to NTUM electronically** with a click of the "submit" button.
- **Most inquiries can be resolved online** without having to send a fax or email.
- **You will be able to customize the system using your preferences**, including email reminders within a certain number of days prior to the effective date and deleting quotes automatically after a certain number of days.
